For 100 years, Richard White Sons, Inc. has held to a simple and consistent mission: to provide highly skilled construction services delivered with integrity in a collaborative setting. From our modest beginnings as stone masons through our years as general contractors specializing in utility and earth-work projects, and continuing today as one of New England's premier building contractors, we have never wavered from our founders' mission.

We are extremely proud of the significant work that we have completed during the past 100 years, and thank everyone who has contributed to a century of construction excellence. As we enter our second century, we are excited by our future prospects.

We welcome the opportunity to bring our years of experience and professional dedication to serve you in planning and executing your next project
